

Job Title: Senior Technologist, Non-potable Systems
Job Competition: SW-28-2023
Location: Saskatoon
Salary: \$32.03 to \$40.03 per hour

Immerse yourself in a team committed to creating trusted and sustainable water solutions for a vibrant Saskatchewan. A team backed by a corporation with over 60 years of experience providing water and wastewater services. That's a lot of knowledge.

But there's more. SaskWater offers an attractive benefits package including employer-funded health, dental and vision benefits, pension, and disability insurance, plus vacation leave, earned days off, and paid family leave and sick leave. At SaskWater you can take advantage of extras such as flexible work options, a tuition reimbursement program, employee family assistance plans, maternity leave top-up and more. H2Wh0a!!

Now that's refreshing! Apply today.

This position is headquartered in Saskatoon. The service area for the position is in Hanley/Blackstrap. A truck will be provided for work in the district the position services. As the Senior Technologist, Non-potable Systems, you will assist with coordinating the work of a group of technicians responsible to undertake operation and maintenance work within an assigned regional waterworks district. The regional waterworks district may include water distribution, water transmission, open conveyance canal and reservoir works. You will also undertake operational duties.

To qualify, you will have a diploma in Water Resources Engineering Technology or a similar technical discipline. You are eligible for certification as an Applied Science Technologist (A.Sc.T.) or Certified Technician (C.Tech.). You have your Industrial Aquatic Pesticide Applicators License and a valid 1A driver's license.

In accordance with the Water and Wastewater Operator Certification Program, certification in Water Treatment, Water Distribution, Wastewater Collection and Wastewater Treatment must, at a minimum, meet the facility level of certification for the district.

In addition to the above qualifications the job requires 4 years of progressively more responsible experience in the following areas:

- Working knowledge of water distribution, water transmission, open channel flow and reservoir operational issues; knowledge of irrigation practices and principles; and regional district operational and maintenance procedures including pipeline, pump, control valve and canal repair.
- Knowledge of construction practices and procedures.
- Working knowledge of the operation, maintenance and repairs required to operate a fleet of light and heavy industrial equipment and ability to operate welding equipment.
- Working knowledge of front line supervisory and time management skills.

- Demonstrated ability in letter and report writing, writing inspection reports and supervising contractors and tradespersons hired to undertake maintenance work.
- Ability to develop and prepare written procedures and operations manuals.
- Ability to establish and maintain effective working relationships with staff, external customers, and service suppliers and to promote and maintain a positive corporate climate.

Special Requirements: *The position requires the incumbent to undergo a Criminal Record Check and Drug and Alcohol test. You must be legally entitled to work in Canada. A valid Saskatchewan driver's license is required.*
